

Fernando Quijano
ECON 202, Spring 2002
11:00

1. I have really enjoyed taking classes from you my last four years. Renae Thomas
2. I learned a lot about the structure of the economy in micro and macro. The courses were hard, but efficient.
3. I thought Fernando did a great job with this course. He is obviously knowledgeable about the subject and gives students every opportunity to excel in the class. I look forward to taking International Business with him in the future.
4. Fernando used excellent forms of technology, knew his stuff and was fun. A person had to pay attention as the material was not easy, but he made it interesting and challenged us. I would take more classes from him and I wished there were more teachers like him.
5. Fernando is an excellent, down-to-earth professor which I appreciate greatly. He is extremely knowledgeable in his area of economics and conveys those ideas in an easy-to-understand manner.
6. I feel that Fernando was an energetic teacher whose course was taught effectively. The work assigned was appropriate and material was available through the Internet as well as the book.
7. This is the third class I have taken from Fernando and I have enjoyed all of them. He has great knowledge on the subjects that he teaches.
8. The class was very interesting and the instructor taught it very well.
9. Couldn't see markerboard!
10. Mr. Quijano is probably the most knowledgeable instructor I have ever taken a class from at DSU. He is an extremely fair instructor who challenges his students to achieve their highest potential.
11. Mr. Quijano appears to have thorough knowledge of the subject. He also used the computer very well to present his material.
12. Fernando needs to be fired. He absolutely is unprofessional. He is a lawsuit waiting to happen for the University.
13. I enjoyed the class and plan on taking more classes from him in the future.
