

Faculty Course Evaluation Form
Econ 201 - Fall 2000
Fernando Quijano

1. The test weighting changed. I blew a test that I thought was only 12% of grade, it then became 25% of grade a month later. This works on 7 also.
2. This class was very difficult. The tests are very challenging. I couldn't bring myself to drop the course because Fernando is a fun, enthusiastic instructor who is also very encouraging to the students. I found the book was a waste of money because the slides were much more effective.
3. The Power Point slides helped a lot. Much better than lecture only. He makes the material as interesting and exciting as it can be.
4. I enjoyed this class. Using Power Point presentation was very helpful in understanding the material. Fernando made the class interesting and fun.
5. It was nice to have the notes available to us on the Internet. We went through a lot of information and it would have been difficult to keep up if we had to take notes. Electronic lecture was good and easy to see.
6. I liked the way he presented the notes in class (on Power Point). He had the notes available for us in the Internet.
7. I really enjoyed this class and am impressed with the Power Point presentations and the notes. It really helps to understand and learn economics.
