

Faculty Course Evaluation Form
Econ 300 - Fall 2000
Fernando Quijano

1. Fernando does an excellent job relaying information to students. He shows great enthusiasm for each course he teaches and I have thoroughly enjoyed every class I have had from him. He is without a doubt the best professor I have had.
2. This class was interesting but I don't feel it was taught effectively, or compared to the "real world."
3. I enjoyed taking this class. I felt I could learn something because Fernando followed the book pretty closely. He also had a good knowledge of the material which helped for reviews.
4. The class has been interesting. Having tests after every two chapters has been beneficial. It is easier to comprehend the material.
5. I think the class is going very good.
6. This has been one of my favorite classes I have taken as a student here at DSU. Professor Quijano really knows his Econ.
7. This was a very interesting class!!
8. No comment.
9. Fernando has his days of when to be enthusiastic or just to be plain. He is a very fun professor. He also has very thorough knowledge of Economics.
