

Fall 2004  
Econ 201\_2:30pm  
23 students

The instructor is very good at explaining the material and is very nice. He really knows what he is doing.

Quijano is extremely knowledgeable and enthusiastic about what he teaches. He makes class very enjoyable and makes the material fun to learn. It's a very challenging class, but if you work hard he rewards you.

Mr. Quijano is one of the most dedicated instructors at DSU. He is great.

I look forward in meeting you in macro-economics class!

This class rocks.... Fernando is the man!!!

Mr. Quijano is my favorite professor at DSU. Granted, his course is very tough, but he makes a relatively boring course fun and interesting. I will be taking another from him.

I enjoyed your enthusiasm!

Great person and smart, but tries to cover too much too fast and has a hard time relaying his knowledge. It is a 211 class, not a 411.

Good class. Learned a lot!

Fernando Quijano is a great teacher who really seems like he enjoys teaching.

He is a wonderful teacher!

This is one of the few teachers I've had on campus who seems to genuinely care whether or not his students understand the material.

Very good, well taught course. Teacher is great.
