

Fall 2004  
Econ 202  
12 students

I like having the occasional Friday off. You are the man, Fernando.

Fernando appears to have a thorough knowledge of economics. He teaches the course effectively and gives us Fridays off, which is nice. Some of his comments and humor may be a little off-the-wall.

Fernando knows his information. He has a lot of information to give to students. The one thing that I didn't like about his class was the campaigning he did for Kerry. The classroom is no place to try to persuade young voters. It doesn't matter what you are, republican or democrat, you shouldn't try to change peoples minds. The Friday's off are nice.

He knows economics so well that sometimes he's hard to follow. Overall, I have learned a lot from him and his courses that I would recommend his course to other students.

Much more effective than in Microeconomics. Having the grades available on the internet was very nice. It was also nice to see test scores posted on the internet right away.

Always late on test days and need to be available during posted office hours. Made class fun and encouraged discussion (good!).

He made class enjoyable. Was able to get more of a break on grades.

Fernando gives us every opportunity to get a good grade in this class. He is a very fair teacher and puts a lot of time and effort for this class.
