Even when I'm unable to attend to class, he is very accessible to me. And he is willing to help me understand anything I don't understand.

He is a very knowledgeable teacher, great class, always available for help!!

Quijano has a lot of economic knowledge that was passed on to me

I enjoyed the instructor. Would consider another class. Do wish we had more graded homework.

I think this instructor is an excellent teacher of this material because he helps ease the difficulty of the course by going in depth and offering help
